SUMMARY

Recent Computer Science Engineering graduate with strong interest in software development and frontend technologies. Skilled in Python, Java, JavaScript, HTML, CSS, React.js, and MySQL with hands-on experience through internships and academic projects. Passionate about building responsive web applications and eager to start a career as a Software Developer.

EDUCATION

BE – CSE with 81%

SRM TRP Engineering College Nov 2022 – May 2026

HSC – 81.16%

Government Higher Secondary School Jun 2020 – Mar 2022

SSLC – 84.44%

Government Higher Secondary School Jun 2019 – Mar 2020

INTERNSHIP

Web Development Intern

T4TEQ Software Solutions Jul 2024 – Aug 2024

Python Intern

Marcello Tech Feb 2024 – Mar 2024

PROJECTS

AI-Enabled Alumni-Supported Student Freelancing Platform

Developed a web-based platform using React, TypeScript, Node.js, and Tailwind CSS to connect alumni and students for freelance opportunities and mentorship. Implemented secure user authentication, project management, and ATS-based resume scoring features. Enabled students to apply for projects based on their skills and gain practical industry experience.

SmartServe – Restaurant Billing & Sales Management System

Developed a restaurant billing and sales management web application using HTML, CSS, and JavaScript. Implemented features such as user authentication, admin management, food search, cart management, QR code payment integration, and PDF bill generation. Used LocalStorage for data management and designed a responsive user interface to enhance billing efficiency.

Career Hub – Career Management Web Application

Developed a responsive web application using HTML, CSS, and JavaScript to help users manage tasks, track job applications, and monitor career progress. Implemented features such as task management, job application tracking, analytics dashboard, profile management, theme switching, and PDF report generation. Utilized Local Storage for data persistence and deployed the application using GitHub Pages.

SKILLS

- **Programming Languages:** Python, Java, javascript
- **Frontend Technologies:** HTML, CSS, React.js, Tailwind CSS
- **Tools & Version Control:** VS Code, Git, GitHub, MS Office
- **Database:** MySQL

LANGUAGES

- **English**
Full Professional Proficiency
- **Tamil**
Full Professional Proficiency

CERTIFICATION

Frontend Developer (React) – HackerRank | Jun 2026

Python (Basic) – HackerRank | Jun 2026

Introduction to Internet of Things – NPTEL (IIT Kharagpur) | Elite Certification (82%) | Oct 2024

Front End Development (HTML) – Great Learning Academy | Nov 2024

Python Training – Besant Technologies | Aug 2023

Java Training – Besant Technologies | Nov 2022
