SUMMARY

Recent Computer Science Engineering graduate with a strong interest in software development and web technologies. Skilled in Python, Java, JavaScript, HTML, CSS, React.js, Django, MySQL, Excel, and Power BI, with hands-on experience through internships and projects. Eager to apply technical skills, learn new technologies, and contribute as a Software Developer.

EDUCATION

BE – CSE with 81%

SRM TRP Engineering College Nov 2022 – May 2026

HSC – 81.16%

Government Higher Secondary School Jun 2020 – Mar 2022

SSLC – 84.44%

Government Higher Secondary School Jun 2019 – Mar 2020

INTERNSHIP

Web Development Intern | T4TEQ Software Solutions

Jul 2024 – Aug 2024

- Developed a responsive login page using HTML, CSS, and JavaScript, focusing on layout, styling, and basic user interaction.

Python Intern | Marcello Tech

Feb 2024 – Mar 2024

- Practiced Python programming concepts including loops, functions, and basic problem-solving through hands-on exercises.

PROJECTS

AI-Enabled Alumni-Supported Student Freelancing Platform | React.js, TypeScript, Node.js, Tailwind CSS, Firebase

- Developed a web platform connecting students and alumni for freelance opportunities and mentorship; implemented authentication, project management, skill-based applications, and ATS-based resume scoring.
- Integrated resume analysis and skill-matching features to help students identify relevant freelance opportunities.

SmartServe – Restaurant Billing & Sales Management System | HTML, CSS, JavaScript, LocalStorage

- Developed a responsive restaurant billing application with authentication, admin management, food search, cart management, QR-based payment, and PDF bill generation.
- Used LocalStorage for data persistence and streamlined the billing workflow through an interactive interface.

Career Hub – Career Management Web Application | HTML, CSS, JavaScript, LocalStorage

- Developed a responsive application for task management and job application tracking with analytics, profile management, theme switching, and PDF report generation.
- Used LocalStorage for data persistence and deployed the application using GitHub Pages.

Django To-Do App | Python, Django, HTML, CSS, SQLite

- Developed a web-based task management application using Django with CRUD functionality for creating, viewing, updating, and deleting tasks.
- Integrated SQLite for data storage and designed a simple, user-friendly interface.

SKILLS

- Programming Languages:** Python, Java, JavaScript
- Frontend Technologies:** HTML, CSS, React.js, Tailwind CSS
- Backend Framework:** Django
- Database:** MySQL, SQLite
- Data & Analytics:** Microsoft Excel, Power BI
- Tools & Version Control:** VS Code, Git, GitHub, MS Office

LANGUAGES

- English**
Full Professional Proficiency
- Tamil**
Full Professional Proficiency

CERTIFICATION

Frontend Developer (React) – HackerRank | Jun 2026

Python (Basic) – HackerRank | Jun 2026

Introduction to Internet of Things – NPTEL (IIT Kharagpur) | Elite Certification (82%) | Oct 2024

Front End Development (HTML) – Great Learning Academy | Nov 2024

Python Training – Besant Technologies | Aug 2023

Java Training – Besant Technologies | Nov 2022
